

REMARKS

Claims 11 through 13 and 15 through 23 are still pending in the present application. Claims 1 through 10 and 14 have been cancelled, and claims 11 and 18 have been amended, as discussed further below.

In the Drawings:

Claim 18 has been amended to more particularly point out and claim the subject matter of the invention. Accordingly, the Applicant contends that the original drawings are in proper form for the present invention as claimed.

35 USC § 112, second paragraph, rejection:

In response to the Examiner's rejection, claim 18 has been amended to recite that the "one or more weights are disposed about said bottom frame section." As such, the Applicant contends that this current recitation points out and particularly claims the inventive subject matter. The Applicant further submits that this correction in claim language is sufficient to overcome the previous objection to the drawings as noted above.

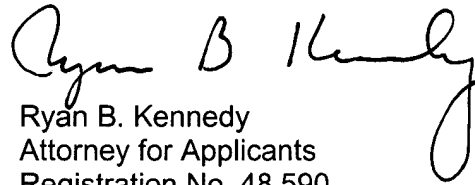

Allowances:

The Examiner noted that claims 14 and 15 contain allowable subject matter. As amended, claim 11 contains all the limitations of claim 14, and thus is in condition for allowance. Claims 12, 13 and 15 through 23 all depend, directly or indirectly, upon amended claim 11, and thus should be in condition for allowance as well. The rejections with respect to the dependent claims are respectfully traversed.

Summary

In light of the above amendment, consideration of the subject patent application is respectfully requested. The Applicant submits that claims 11 through 13 and 15 through 23 are in condition for allowance in their current form. Any deficiency or overpayment should be charged or credited to Deposit Account No. 500282.

Respectfully submitted,
